PROFESSIONAL SUMMARY

Full Stack Engineer with 4.5+ years of experience building scalable web applications, secure REST APIs, and AI-powered systems using Laravel, Django, FastAPI, and React. Experienced in multi-agent LLM architectures (LangGraph, LangChain, RAG), real-time systems (WebSockets, Kafka), and cloud-native deployments (Docker, AWS, CI/CD). Proven ability to design production-grade backend infrastructure from scratch, lead delivery teams, and contribute measurable business outcomes.

EXPERIENCE

Software Developer

Mamili Technology Pvt Ltd

Jul 2025 – Present
Delhi

- **AI System Architecture:** Developed multi-agent AI workflows integrating LLMs, LangGraph, and RAG pipelines for intelligent automation and personalized user experiences.
- **Security & Reliability:** Architected secure backend systems with JWT-based auth, RBAC, and advanced security protocols; reduced security-related user-reported issues by 30%.
- **Cloud & DevOps:** Deployed containerised services on AWS using Docker; enforced CI/CD pipelines for consistent delivery.

Full Stack Developer

Munjai Chakraborty Software & Media Pvt Ltd

May 2024 – Jun 2025
Gurugram

- **Enterprise Applications:** Constructed and maintained production-grade apps using Laravel, Django, and React; contributed to a 20% increase in monthly active users.
- **Payment Systems:** Implemented secure wallet, transaction, and mandate management modules; integrated multiple payment gateways (PayU, UPI Autopay).
- **Scalable API Design:** Created modular, RESTful APIs following clean architecture principles; decreased average API response time by 25% and enhanced backend security.

Senior Lead Developer

Lavessta Enterprise Pvt Ltd

Apr 2022 – Mar 2024
Noida

- **AI-Powered Features:** Implemented ML/AI workflows for data extraction and analysis; increased project revenue by 15%.
- **Scalable REST APIs:** Engineered fault-resistant RESTful web services supporting 1000+ concurrent users.
- **Team Lead:** Oversaw backend development and coordinated delivery with team members; reduced production-level user-reported bugs by 35% across all projects.

Backend Developer

Basic Education Pvt Ltd

Aug 2021 – Apr 2022
New Delhi

- **Performance Optimisation:** Optimized API response and page execution speed by 20% through algorithm restructuring and new design patterns.
- **Scalability:** Refactored core backend components and integrated proactive monitoring systems to achieve 99.9% system uptime.

PROJECTS

Anaya – Multi-Agent AI Healthcare Assistant

Mamili Technology Pvt Ltd

Nov 2024 – Present

Tech: FastAPI, LangGraph, LangChain, ChromaDB, Gemini 2.0 Flash, WebSockets, MySQL

- Sole AI & Backend Developer; Architected and implemented entire architecture from scratch.
- Implemented multi-agent routing with LangGraph and RAG pipeline using LangChain + ChromaDB for personalised health advice.
- Implemented real-time streaming via WebSockets; integrated emergency routing with live doctor escalation.

Global Payments

Munjal Chakraborty Software & Media Pvt Ltd

Jul 2024 – Jul 2025

Tech: Laravel, Payment Gateway APIs

- Led project end-to-end as sole Backend Developer — owned architecture, planning, and delivery timelines while coordinating directly with client for requirement gathering and feature sign-off.
- Maintained and enhanced a multi-gateway payment processing system for secure merchant-customer transactions.
- Optimised transaction throughput and ensured compliance with financial security standards.

HDFC UPI Autopay

Munjal Chakraborty Software & Media Pvt Ltd

May 2024 – Jul 2024

Tech: Laravel, HTML/CSS, JavaScript, PayU API

- Led development of a bank-mandate management system (setup, execution, revocation) in collaboration with PayU.
- Ensured secure and compliant handling of all financial transactions.

I4Invest – AI Trading Data Platform

Lavessta Enterprise Pvt Ltd

May 2023 – Mar 2024

Tech: Django REST Framework, React.js, Python, ML

- Led a development team as lead developer — planned sprints, assigned tasks, and coordinated with stakeholders on deliverables.
- Spearheaded backend development and team as lead developer; extracted and normalised trading data from PDF, HTML, XML, and Excel.
- Applied ML-based analysis pipelines on unified database model for investment insights.

TECHNICAL SKILLS

Languages	Python, PHP, JavaScript
Backend	Django, DRF, Laravel, FastAPI
Frontend	React.js, Next.js, Tailwind CSS, HTML/CSS, jQuery
Databases	MySQL, ChromaDB (Vector DB)
AI / ML	LangChain, LangGraph, RAG, Gemini, Multi-Agent Systems
Messaging	Kafka, Redis, WebSockets
DevOps / Cloud	Docker, Kubernetes, AWS, Jenkins, GitHub Actions, CI/CD
Observability	ELK Stack (Elasticsearch, Logstash, Kibana), Prometheus
Security	JWT, RBAC, OAuth2
Tools	Git, GitHub, GitLab, Jira

EDUCATION

B.Tech – Computer Science & Engineering

Dr. A.P.J. Abdul Kalam Technical University

(Pursued via lateral entry post-Diploma, alongside full-time employment with institutional NOC)

2023 – 2026

Uttar Pradesh

Diploma in Engineering

Mahamaya Polytechnic of Information Technology

2021 | 79.6%

Uttar Pradesh

CERTIFICATIONS

- PHP Programming – Mecatredz Technology Pvt Ltd (2021)
- Python Programming – APTRON Solutions Private Limited (2020)
